

Antivirus

Automatic protection against viruses and spyware

- ▶ Latest generation antivirus
- ▶ Keeps your PC free from spyware
- ▶ Complete protection for Windows Vista
- ▶ Protects against online fraud
- ▶ Automatic daily updates

Install it - forget about viruses & spyware!

Viruses, worms and Trojans have evolved and multiplied. Now they are designed to infect without you noticing. Ebuyer Antivirus automatically detects and eliminates them to keep your PC virus-free. Forget about infections!

Complete protection for Windows Vista.

While security in Windows Vista is improved, it is not designed to protect against viruses, worms and certain kinds of Trojans. Ebuyer Antivirus is the ideal solution for your Windows Vista computer. It combines excellent protection with very fast scanning, to maintain high levels of computing performance.

Keeps your PC free from spyware.

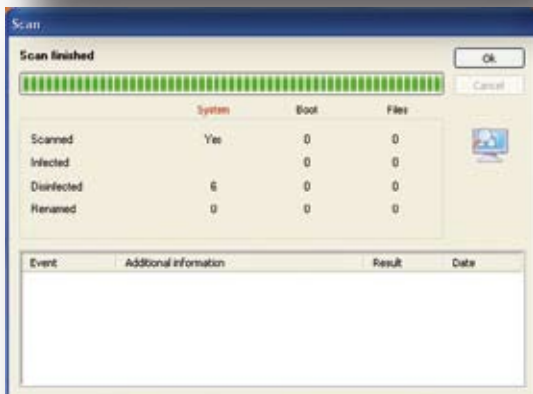

The Internet is teeming with spy programs that can invade your privacy and steal information by secretly snooping on your online activity. Spyware can also slow down your PC, cause annoying and aggressive pop-up ads, and change your computer settings. Ebuyer antivirus detects and completely removes spyware and other annoying programs automatically.

Protects against online fraud.

New sophisticated online fraud techniques emerge every day. These scams are designed to obtain your login details, account numbers and other data that can then be used to steal your money or identity. Ebuyer Antivirus will keep you safe from these dangerous scams.

Automatic daily updates.

The product is automatically updated, at least once a day, to protect you against viruses, spyware and other threats.

Free Support - Free and unlimited support via direct links from the help menu of each application is available for all our current versions. In addition FAQs can be found on our website www.ebuyersoftware.com/antivirus
